AMENDMENT

Assistant Commissioner of Patents and Trademarks  
Washington, D.C. 20231

Dear Sir:

In response to the Office Action mailed September 18, 2002, applicants request reconsideration of the patentability of the claims.

Group I, claims 14-21 and 42, was elected. These claims are drawn to a method of providing the physiological effect of wild-type p53 protein to a cell. Claims 1-13, 22-38, and 40-41 were cancelled by preliminary amendment. Only claim 39 should have been withdrawn from consideration.

IN THE CLAIMS

Cancel claim 39.

14. (Amended) A method of providing the physiological effect of wild-type p53 protein to a cell, comprising the steps of:

providing to a cell a compound which is is able to complex specifically with a p53-specific binding site, whereby the physiological effect of wild-type p53 protein is provided.
